

Technical Data Sheet

Part # 1007	Name: Billet P7100 Rack Cap
-------------	-----------------------------

Product Description:

The APP Billet Rack Cap allows full rack travel of the P7100 injection pump. By allowing the 4mm more travel, the horsepower gain will be impressive! Made in America of 6061 aluminum.

Fits '94-'98 Dodge Cummins and all P7100 injection pumps

Replaces:

Bosch part 2095
Bosch part #2423462000

Install Instructions:

APP strongly suggests removal of the injection pump for install of our rack cap.

With the injection pump removed, remove the stock rack cap and install the APP billet rack cap. Torque to 45 ftlb.

Installation of the rack cap can be done without pump removal, but requires timing case grinding which, when done improperly, can lead to engine damage. Therefore we do not offer that info.

A word of caution before attempting any performance modification: It is the sole responsibility of the purchaser and installer of any APP part to employ the correct installation techniques required to ensure the proper operation of the part. APP offers the highest quality performance parts; however, APP holds no liability for any part failure due to improper installation or use. Some APP parts can be used for off-road and competition. It is the sole responsibility of the customer to verify that the use of their vehicle and items purchased comply with federal, state and local regulations. APP offers no certification regarding pollution-controlled devices or mandated emissions requirements. Performance products are legal in California only in certain strict circumstances. There is no instance where APP, it's officers, members, employees, agents, representatives, and/or volunteers are liable for any damages, personal or mechanical, whatsoever.
