

Technical Data Sheet

Part # 1009	Name: Bolt-on Freeze Plug (SIDE)
-------------	----------------------------------

Product Description:

The APP Bolt-On Side Freeze Plug will eliminate blown freeze plugs due to high rpm. They are a great way to dress up your engine. Made in America of 6061 aluminum.

Fits all 3.9L, 5.9L, & 6.7L Cummins diesel engines '89-current

Replaces:

N/A

Install Instructions:

To install the APP billet freeze plugs: Remove your factory side freeze plugs; clean the bore with scotchbrite (make sure there is nothing in the bore that can cut the o-ring). Thread the bolt into the plug retainer 2 full turns and install the plug in the block. Torque to 20ftlb. The freeze plug should go in with hand pressure only.

A word of caution before attempting any performance modification: It is the sole responsibility of the purchaser and installer of any APP part to employ the correct installation techniques required to ensure the proper operation of the part. APP offers the highest quality performance parts; however, APP holds no liability for any part failure due to improper installation or use. Some APP parts can be used for off-road and competition. It is the sole responsibility of the customer to verify that the use of their vehicle and items purchased comply with federal, state and local regulations. APP offers no certification regarding pollution-controlled devices or mandated emissions requirements. Performance products are legal in California only in certain strict circumstances. There is no instance where APP, it's officers, members, employees, agents, representatives, and/or volunteers are liable for any damages, personal or mechanical, whatsoever.
