

Technical Data Sheet

Part # 1010-1

Name: Bolt-on Freeze Plug (REAR)

Product Description:

This APP Bolt-On Rear Freeze Plug will eliminate a blown freeze plug due to high rpm. If the factory freeze plug fails, this part may be installed without thinned to remove the transmission! Made in America of 6061 aluminum.

#1010-1 Fits '89 to '02 Cummins engines

Install Instructions:

To install the APP billet rear freeze plug: Remove the factory rear freeze plug; Clean the bore with Scotchbrite (make sure there is nothing in the bore that can cut the o-ring); Install the freeze plug; Install the supplied bolts. Torque to 45ftlb.

A word of caution before attempting any performance modification: It is the sole responsibility of the purchaser and installer of any APP part to employ the correct installation techniques required to ensure the proper operation of the part. APP offers the highest quality performance parts; however, APP holds no liability for any part failure due to improper installation or use. Some APP parts can be used for off-road and competition. It is the sole responsibility of the customer to verify that the use of their vehicle and items purchased comply with federal, state and local regulations. APP offers no certification regarding pollution-controlled devices or mandated emissions requirements. Performance products are legal in California only in certain strict circumstances. There is no instance where APP, it's officers, members, employees, agents, representatives, and/or volunteers are liable for any damages, personal or mechanical, whatsoever.
