

Technical Data Sheet

Part # 1016

Name: 5.9L & 6.7L Cummins Saddle Jet Plug

Product Description:

The APP Saddle Jet Plug is a must for everyone building a performance engine. The original factory plug is made from plastic and can fail at any time. Our plug is made from 7075 aluminum. It's strong, and will live thru any stress you put on your engine.

Fits all B Series '03-current

Replaces:

Cummins part# 3959574

Install Instructions:

To install the APP saddle jet plugs: Make sure the bore is cleaned with a brush; Lube the oiler with oil or assembly lube; Using a hammer with a punch, seat the jet plug until you feel it bottom out in the bore.

A word of caution before attempting any performance modification: It is the sole responsibility of the purchaser and installer of any APP part to employ the correct installation techniques required to ensure the proper operation of the part. APP offers the highest quality performance parts; however, APP holds no liability for any part failure due to improper installation or use. Some APP parts can be used for off-road and competition. It is the sole responsibility of the customer to verify that the use of their vehicle and items purchased comply with federal, state and local regulations. APP offers no certification regarding pollution-controlled devices or mandated emissions requirements. Performance products are legal in California only in certain strict circumstances. There is no instance where APP, it's officers, members, employees, agents, representatives, and/or volunteers are liable for any damages, personal or mechanical, whatsoever.
